Roll a Santa Christmas Game

The Objective

Be the first person to complete your Santa to win. Each roll of the cube tells the play

How to Play

Everyone gets a Santa paper. The youngest player goes first.

Roll the Cube. The cube will say which Santa part to draw.

Then the next player goes and draws their Santa part.

The first one to complete Santa wins.

Variations to the Game

- **Want to play alone?** Have the child, roll and draw each part. While it is basically just drawing Santa, because of the cube roll, this make it more fun for the kids.
- **Want to make the game last longer or more challenging?** Color Santa too. The first time a player rolls a section, it gets drawn. The second time, the child colors the area.
- **Play as a group.** Don't want to make it a competition. That's ok. Everyone takes a turn rolling and the group all draw at the same time. The color steps can also be added this way.
